UI/UX designer with 3+ Years of experience crafting engaging, user-friendly dashboards and websites. Skilled in Figma and Adobe tools, I collaborate with 3+ teams to deliver accessible, visually appealing, and user-centered experiences that drive results.

WORK EXPERIENCE

SECURENEXT SOFTWARES
Apr 2022 - Present

UI / UX Design
- Created wireframes, user flows, storyboards, and information architecture for web and project management tools.
- Conducted competitive research and client brainstorming sessions to define feature requirements and design direction.
- Designed clean, consistent interfaces for CRM dashboards and websites, ensuring usability and brand alignment.
- Developed high-fidelity interactive prototypes in Figma and enhanced UI with motion design using Jitter.
- Established reusable UI component libraries and design systems, reducing development time by 30%.
- Crafted mood boards to define visual style and ensured accessibility (WCAG) compliance for inclusive design.
- Implemented effective call-to-actions (CTAs) to boost user engagement.

Web Development
- Converted designs into responsive, pixel-perfect HTML/CSS and created smooth web animations using GSAP for enhanced interactivity.
- Collaborated with WordPress, Angular, and Laravel teams to ensure design consistency throughout development.
- Experienced with WordPress and Divi Elegant Theme for efficient website customization.

Performance Optimization
- Partnered with SEO teams to optimize webpage load speed and performance using Google PageSpeed Insights.

Graphic & Motion Design
- Produced UI Animation and motion graphic videos using Jitter, Adobe Premiere Pro, and After Effects to support marketing efforts.

Client Collaboration
- Led end-to-end UI/UX design projects, collaborating directly with clients and project managers to deliver user-centered solutions.
- Effectively communicated project progress and feedback through Trello, Slack, Google Meet, and Microsoft Teams.
- Independently managed projects from start to finish, ensuring timely delivery and client satisfaction.
